

Poster Making Contest

I. Participants

The participant must be a Grade 4-6 student.

II. Theme: “Antibiotics: Handle with care”

Antibiotics are considered as one of the fundamental discoveries in the history of medicine as they have been saving millions of lives around the world. However, because they have been misused and overused both by humans and animals, bacteria grew stronger and turned into “superbugs” that some antibiotics cannot kill them anymore. The losing power of antibiotics is everyone’s problem because this will eventually leave the world with no more medicines to treat any infectious diseases which can result into millions of deaths worldwide.

All of us have the responsibility to save our antibiotics. We can prevent this dreadful future by practicing good hygiene and sanitation to prevent the spread of bacteria, and by using our antibiotics responsibly. This means that when we feel sick, we should not immediately take antibiotics, but visit a doctor for check-up. In taking our antibiotics, we must follow the instructions written by the doctor on the prescription. We must finish the prescribed number of antibiotics even if we feel better. We should avoid using left over antibiotics and sharing our antibiotics with others.

Together, we can all fight the superbugs! Let us handle our antibiotics with care!

III. Registration Period: September 1, 2016 to October 14, 2016

IV. Mechanics

- Only three (3) entries coming from different schools and divisions per region shall be accepted. These regional entries shall be endorsed by the Regional Office of the Department of Education directly to the **DOH-Pharmaceutical Division** Office at the 3rd floor Bldg. 15 Department of Health, San Lazaro Compound, Rizal Avenue, Sta. Cruz, Manila
- The entries shall include: the **poster** and **two (2) accomplished registration form** (Annex B)
- The **poster** shall be rendered in a **1/4 (15” x 20”) illustration board** using coloring materials such as pencil, crayons, oil pastel, water color or acrylic paint.
- Entries shall be posted in the **PAAW 2016 Facebook page** for online voting. Online voting period will be on October 15 – 26, 2016.
- The **Top 3 winners** shall be notified through email and the contact number provided and shall be announced in the PAAW 2016 Facebook page. They will be invited to attend the Antibiotic Awareness Week Celebration on **Nov 15, 2016** for the awarding. All entries shall become the property of the DOH.

V. Criteria for Judging

Adherence to the theme	30 %
Creativity and Originality	30 %
Impact	20 %
<u>Online votes</u>	<u>20 %</u>
Total:	100%

- Judges: HPCS, DepEd, WHO, DA, PD, PHICS/NAGcom

VI. Prizes

All participants shall receive a certificate of participation. The winners shall receive a plaque and the following cash prizes: 1st Place - P5000; 2nd Place – P3000; 3rd Place – P2000.

AMR Infographics Making Contest

I. Participants

Anyone can participate for this contest.

II. Theme: “Antibiotics: Handle with care”

Antibiotics are considered as one of the fundamental discoveries in the history of medicine as they have been saving millions of lives around the world. However, because they have been misused and overused both by humans and animals, bacteria grew stronger and turned into “superbugs” that some antibiotics cannot kill them anymore. This dangerous ability of microorganism to withstand the attack of antibiotics is called **Antimicrobial Resistance**. It has been regarded a significant public health threat that causes major health and economic consequences both in human and veterinary health. In the Philippines, the Antibiotic Resistance Surveillance Program (ARSP) found very alarming rates of resistance among various pathogens. It is everyone’s problem because this will eventually leave the world with no more medicines to treat any infectious diseases which can result into millions of deaths worldwide.

All of us have the responsibility to save our antibiotics. We can prevent this dreadful future by practicing good hygiene and sanitation to prevent the spread of bacteria, and by using our antibiotics responsibly. This means that when we feel sick, we should not immediately take antibiotics, but visit a doctor for check-up. In taking our antibiotics, we must follow the instructions written by the doctor on the prescription. We must finish the prescribed number of antibiotics even if we feel better. We should avoid using left over antibiotics and sharing our antibiotics with others.

To address this global health concern, the Philippines committed to adapt the Global Action Plan on AMR, to ensure continuity of successful treatment and prevention of infectious diseases which led to the creation of the **Inter-agency committee on AMR (ICAMR)**. The ICAMR co-chaired by the Department of Health and Department of Agriculture, in collaboration with other government agencies such as the Department of Science and Technology, Department of Interior and local Government and Department of Trade and Industry, developed the **Philippine Action Plan to combat AMR: One Health Approach** to establish the short and long term programs both in animal and human health sectors. The key strategies involved are:

1. Strengthen surveillance and laboratory capacity;
2. Ensure uninterrupted access to essential medicines of assured quality;
3. Regulate and promote the rational use of medicines in human and animal health sectors;
4. Enhance infection prevention and control across all settings;
5. Foster innovations, research and development; and
6. Development of a risk Communication Plan to combat AMR.

Content and adherence to the theme	40 %
Creativity and Originality	30 %
Impact	20 %
Online votes	10%
<hr/> Total:	100%

- Judges: HPCS, DepEd, WHO, DA, PD, PHICS/NAGCom

VI. Prizes

All participants shall receive a certificate of participation. The winners shall receive a plaque and the following cash prizes:

1 st Place:	P20,000
2 nd Place:	P15,000
3 rd Place:	P10,000

AMR Warriors 2016: Best Practices to Combat Antimicrobial Resistance

I. Nominees

The AMR Warriors seeks to honor model individuals, organizations, communities, companies and/or agencies who performed best practices and showed excellence, and rendered time, effort and a part of their life in implementing any program, intervention or strategy (either small-scale or large-scale) that strongly advocates the responsible use of antibiotics and the combat of Antimicrobial Resistance. The nominees shall possess the following:

- Excellence in work – Consistent display of work that meets the highest standards of quality and provides satisfaction to clients
- Commitment and innovation – Dedication, loyalty to effective service and achievement of results, above and beyond the call of duty.
- Leadership – Change leaders who steer growth and development of the health sector.

II. Nomination Period: September 1, 2016 to October 14, 2016

III. Mechanics

- The nomination shall be submitted to the DOH Office: 3rd floor Bldg. 15 Department of Health, San Lazaro Compound, Rizal Avenue, Sta. Cruz, Manila and shall include the following:
 - ✓ Two (2) accomplished **nomination form** (Annex A)
 - ✓ two (2) **CDs** containing the 5-minute AVP of the Nominee
- The AVP must be a **5-minute high definition video** in **mpeg4 format** which answers the following questions:
 - What were the problems/challenges that the nominee/s faced that probed them to advocate against AMR?
 - What is/are the nominee/s relevant contribution/s to combat AMR in the Philippines?
 - Describe your model project. How does it contribute to the national agenda to promote the responsible use of antibiotics and addressing the problem of antibiotic resistance?
- **Top 10 entries** shall be posted in the **PAAW 2016 Facebook page** for online voting (through number of likes). Online voting period will be on October 15 – 26, 2016.
- The **Top 3 winners** shall be notified through email and the contact number provided and shall be announced in the PAAW 2016 Facebook page. They will be invited to attend the Antibiotic Awareness Week Celebration on **Nov 15, 2016** for the awarding. All entries shall become the property of the DOH.
- All entries shall become the property of the DOH.

IV. Criteria for Judging

Excellence and Commitment Shown	50 %
Overall Relevance to the Community	30 %
Online votes	20 %
<hr/> Total:	<hr/> 100%

- Judges: HPCS, DepEd, WHO, DA, PD, PHICS, NAGCom

V. Prizes

All participants shall receive a certificate of participation. The winners shall receive a plaque and the following cash prizes: 1st Place – P40,000; 2nd Place – 25,000; 3rd Place – P15,000.
